## John G. Woolley Recommends Prohibition For Hawaii

SAN FRANCISCO, Oct. 18.—John G. Woolley, who was candidate for President of the United States on the Prohibition ticket in 1908 and is now superintendent at Honolulu of the Anti-Saloon League, arrived here today on the liner Korea.

He has come to the mainland to attend and address a number of temperance conventions and will be in Washington for the opening of Congress.

The object of his visit to the national capital, he said today, is to press for the passage of a bill making the Territory of Hawaii a prohibition district. He paid a tribute to the good behavior while at Honolulu of the men of the Pacific fleet. Except for the Sunday on which the brewers broke the law and sold Jack beer by the wholesale there was hardly a case of intoxication among the men of the fleet. The brewers, he said, who are blamed for Jack's fall on that memorable Sunday, probably will be indicted.

#### U. S. NEGOTIATING WITH RUSSIA.

ST. PETERSBURG, Oct. 18.—Negotiations between the Russian government and the United States state department authorities are now pending looking toward the free access of American Jews to Russia. Herebefore Jews resident in America have had great difficulty in obtaining passports enabling them to travel within the confines of the Russian empire, the antagonism of the Russian officials towards Jews being extended to the representatives of that race outside of as well as within the empire.

The American government is endeavoring to secure for American Jews the same free right of travel in Russia as is granted Americans of other racial stocks.

#### REGULAR ARMY OFFICERS FLY IN WRIGHT'S AEROPLANE.

COLLEGE PARK, Md., Oct. 18.—Lieut. Lahm, U. S. A., who made a record for himself as a balloonist by winning the international race starting in France last year, has demonstrated his further skill as an aviator. Today, in company with Lieut. Humphrey, U. S. A., he made a light in the aeroplane purchased by the government from the Wright Brothers, the start, flight and descent being made without accident. The two army men demonstrated that the Wright machine can be handled by others than experts.

The test was made to demonstrate the utility of the Wright machine in the hands of regular army men. The outcome is regarded as very satisfactory.

#### WATERFRONT NOTES

ACCORDING to advices received from the Orient, Sholor, Silverstone, agent for the Pacific Mail company at Hongkong, has tendered his resignation, to take effect at the end of the year. Prior to his appointment to the Hongkong agency Silverstone was secretary of the Occidental and Oriental Steamship company. The Hongkong agency is the most important branch of the Pacific Mail in the Far East. Silverstone has not been altogether happy in his Asiatic billet, although he held down the job for a number of years. He went out with the intention of converting Hongkong to American business methods and for his pains and a few other little things was barred from membership in the Hongkong Club, which is the center of social and business activity in the British colony. Silverstone was regarded here as a good steamshipman, but he was not a diplomat, and in the Far East diplomacy is more a business necessity than hustle. Silverstone's successor has not been named, but several lightning rods have been erected since the news came of his decision to quit.—Chronicle.

A WARNING to mariners against submarine mines near Vladivostok was published in the London Gazette on Sept. 25, though the Russo-Japanese war ended nearly four years ago. The Gazette says: "In view of the possibility of encountering mines which have not yet been removed and still constitute a danger to navigation, vessels bound to or from Vladivostok should use the eastern entrance, to the Eastern Bosphorus. A good lookout should be kept for floating objects, all of which should be given a wide berth."

SHAREHOLDERS of the Toyo Kisen Kaisha are reported by Japanese papers as having held an interesting meeting on September 25 in the Nihonbashi Club, Tokio, S. Asano occupying the chair. The chairman said he regretted that the business of the company for the first half of this year showed a loss of Y.192,260. Fortunately the company possessed a reserve of Y.162,790 for the purpose of repairing steamers. Deducting from this reserve the sum of Y. 44,770 spent in repairing liners during the period under review, there remained a balance of Y.118,020. This balance is to be deducted from the loss account of Y.192,260, so that there remains Y.74,340 as a loss for the period under review. To this must be added another loss of Y.809,709 sustained by the company during the second half of last year, making a total of Y.883,949.

WHAT IS destined to be the first shipment of Philippine sugar to leave the Philippine island for free entry into the United States has left Iloilo on the steamship Lismore. A cargo of 5,000 tons of sugar was the extent of the first shipment, and the Lismore sails from Iloilo for New York with it. It is reported on the Iloilo sugar exchange that two other foreign vessels are expected there to take the other shipments to New York.

TODAY'S ARRIVALS included the inter-island steamer W. G. Hall, from Kauai ports. The liner brought 12 passengers and her freight list included 80 sacks of taro and 43 packages of sundries. One automobile was an arrival by the vessel.

## KNIGHTHOOD IS STILL IN FLOWER

Christian Was Upheld in His Action in Defense of Womankind — Lawyer Harrison Failed to Bring Assailant to Book.

The age of chivalry has not passed. T. Milner Harrison, a legal light of Honolulu who failed to bring one John Harrison to book up on a charge of assault and battery can now more appreciate the full force of the sentiment.

Lawyer Harrison filed charges against Christian in which he claimed that he was slapped across the face by Christian as the latter was leaving a hotel street place of amusement, in company with a lady acquaintance. The matter of personal difference between Harrison and Christian was aired before Judge Andrade at this morning's session of Police Court.

Judge Andrade discharged Christian. It was found that the assault upon the lawyers features by the Christianist was sufficiently provoked.

Christian called forth a number of witnesses to the assault. All declared that Harrison had been paying offensive attention to a woman patron and she was finally obliged to appeal to Christian for relief from the persecution by the amorous T. Milner.

The woman who figured in the unsolicited attentions from the lawyer was present and called to the stand. She claimed that Harrison had persisted in following her about the place of amusement until patience ceased to be a virtue. She therefore called Christian to her aid.

She also claimed that Harrison had continued his persecution, that he had followed her after the assault by Christian and even last evening the lawyer had endeavored to force his attentions upon her.

Harrison took the stand in his own behalf and practically entered a general denial to all evidence offered by the prosecution.

There was a fervent appeal for the protection of womanhood from Attorney Leon Strauss, who represented Christian. Strauss fairly shattered the bare walls of the old court room in his ringing declaration that chivalry was not a dead issue. He called loudly for the acquittal of his client.

Christian therefore left the courtroom as would a conquering hero. The defense of womanhood had been vindicated.

THE INTER-ISLAND steamer Maui, from Kauai, arrived at Honolulu today, taking a large list of passengers destined for the various ports of call on Maui and Hawaii. The Maui is carrying among her passengers a number of intending visitors to the natural wonder of Hawaii, the volcano.

The freight list included the regular amount of sundries.
